

AutoTracer

NAS

NO PC REQUIRED

Condre introduces the AutoTracer NAS, a new direct network attach CD and DVD Recordable Publishing system, featuring easy plug and play installation and integration into virtually any computer environment. Now users can utilize the functionality of CD and DVD R printing and recording capability in the same manner as any network attach Laser Jet printer, including user friendly software and reliable robotics. With a powerful embedded internal PC, high capacity RAM and hard drive, the AutoTracer NAS attaches to the network via TCP/IP interface through the RJ45 jack on the back of the unit. The resulting configuration is a high performance publishing system with a small desktop footprint. Most importantly, the AutoTracer NAS provides the user with the best feature set available today, at the most competitive price points. For additional details on this new, innovative CD / DVD R Publishing solution, call your Condre Sales Representative today!
