

High Resolution CD / DVD R Media Printers from

CONDRE

CD Imager
1200

CD Imager
2400

For users requiring superior thermal ink jet printing on CD and DVD R printable media, the CD Imager 1200 and 2400 are the first choice. The CD Imager 1200 and 2400 combine exceptional print quality, sleek desktop footprint, and fast print speeds to create a High Performance CD / DVD media printing system. Discs printed on the CD Imager 1200 or 2400 portray a truly professional output and image. More importantly, their price points make them affordable for almost any CD / DVD R user. Software included with the printers allows users to import and edit images from multiple sources (including Quark and Photoshop) to create a variety of text and graphics with it's own onboard capabilities. In addition, advanced ink cartridge technology with low refill costs make the CD Imagers a long term value. For high quality CD / DVD R media printing at a reasonable price, a CD Imager 1200 or 2400 is the answer. Call today for more information !!
